STRIVE LIGHT 10

A person with long brown hair, wearing a black jacket, grey leggings, and green sneakers, is walking away from the camera on a paved path in a park. They are carrying a black backpack and wearing headphones. The path is surrounded by lush green grass and several large, mature trees with thick trunks. Sunlight filters through the leaves, creating dappled shadows on the path. The overall scene is peaceful and natural.

- Added two side pockets or easy access

DESIGNED IN SWEDEN SINCE 1933

A close-up photograph of a person's hands holding a white dry bag. The bag has the text 'V71S' printed vertically in purple. The person is wearing a yellow shirt. In the background, there is a metal pot and a water bottle on a boat, with the ocean visible.

CARRY DRY BAGS

SS20

RPET SERIES

Our R-PET dry bags are made of lightweight, durable and 100% recycled material. We choose to design these dry bags in recycled PET to make them as environmentally friendly as possible but still rugged, waterproof and reliable - everything you can expect from a high-quality dry bag.

THE DESIGN STORY BEHIND: RPET DRY BAGS

WHAT

- The first Dry Bags on the market made entirely out of recycled polyester.

WHY

- Designed to be as environmentally friendly as possible but still rugged, waterproof and reliable.

WHO

- Made for outdoor enthusiasts who care for the environment and need to keep gear dry and organized.

WHEN

- Whether you are going camping, kayaking or sailing - these dry bags will protect your gear.

KEY FUNCTIONS / KEY DESIGN ELEMENTS

- Environmentally friendly, waterproof, lightweight.

The background of the entire advertisement is a black and white photograph of numerous crushed plastic bottles, likely PET, scattered across a dark surface. The bottles are in various stages of being crushed, with some showing the original shape and others being completely flattened. The lighting creates highlights and shadows on the plastic, emphasizing its texture and the damage done to it.

RPET DRY BAGS

The new RPET dry bags are made of 100% recycled plastics. They are the start of our revolution, where we care for your belongings as much as we care for nature. The RPET dry bags are available in five different sizes – see them all and get the story at silva.se

HYDRATION PACKS & BELTS

SS20

SILVA HYDRATION BELTS – WHEN YOU AIM TO IMPROVE

With our hydration belts, you can continuously refill and keep your energy in perfect balance during your activity. When moving forward, you need a hydration belt that supports you and your gear without being in the way - our belts just follow your lead and let you focus on your performance.

THE DESIGN STORY BEHIND: HYDRATION BELTS

WHAT

- 3 different hydration belts that enable the user to bring fluid and necessary gear while xc-skiing.
- Each belt model has different key features for different needs.

WHY

- While xc-skiing, it is important to stay hydrated and be able to access/stow away your gear without affecting your performance.
 - So we designed belts that fill purpose.

WHO

- Designed for the Pulse lover, XC-skiier and people in general who like to discover the outdoors on skis.

WHEN

- To be used day and night! - Reflective details are good for visibility.
- Works in all weathers - Water resistant.
- Different models for different speed/duration of activity.

Hydration

Compression

The Free 10 series is designed for the Pulse lover or Adventure seeker and will support you, wherever you choose to go.

The 10L main compartment is made to hold a lot of gear, but can also be made really small and neat if you choose to go lightweight. The compartment size is easily adjusted with the glove friendly compression straps without taking the belt off.

Choose **Free 10X** if you need much packing volume and to stay hydrated during a long training session, ultra race or adventure. If you need even more packing volume, it is easy to detach the hydration reservoir, or you can choose our **Free 10** that comes without one.

FEATURES

- Adjustable packing volume (0-10L)
- Compression straps on main compartment
- Insulated hydration compartment (1.5L)
Placement for reservoir. Outputs on 2 sides
- 1.5 L hydration reservoir included
Detachable and washable
- Insulated hose
Detachable and flexible
- Easy to adjust
Pull waist straps forward to tighten

- Wide belt
Distributes the weight evenly
- Big buckle in front
Easy to operate, even when wearing gloves
- 4x gel attachment / strap holder
- 1x elastic mesh, side pocket
- 1x zippered, weatherproof, side pocket
- Comfortable 3D mesh back with padding
- Low weight & comfortable fit
245g (belt), 200g (reservoir)
- Cable exit
For headlamp battery
- Great visibility in darkness
Reflective details
- Visibility light holder
Fits SILVA Tyto lamp

Hydration

Flow 6X is designed for the XC-skiier who needs to stay hydrated and wants somewhere to place their most necessary gear... and more.

The 6L main compartment is made in a lightweight mesh fabric that is expandable for an optimized packing volume.

The included hydration bottle (1.2L) has a curved design that follows the shape of your lower back. The insulated compartment keeps the fluid at the right temperature longer and makes the bottle easy to detach and machine wash.

Choose **Flow 6X** if you need to stay hydrated during your activity and have the time to pause and take off the belt to refill your energy levels.

FEATURES

- **Optimized packing volume (6L)**
Expandable mesh
- **Insulated bottle compartment (1.2L)**

RPET RAIN COVERS

Our R-PET rain covers are made of lightweight, durable and 100% recycled material.

Designed to be as environmentally friendly as possible but still rugged, weatherproof, reliable and functional. These rain covers will protect your gear and they will keep our outdoors clean for future adventures. If you are a true outdoor enthusiast – choose out R-PET series.

THE DESIGN STORY BEHIND: RPET DRY BAGS

WHAT

- Rain covers made entirely out of recycled polyester.

WHY

- To broaden our range of products using recycled materials.
Designed to be as environmentally friendly as possible but still rugged, weatherproof, reliable and functional.

WHO

- Made for outdoor enthusiasts who care for the environment and need to keep gear dry.

WHEN

- For all those outdoor adventures where you might be surprised by rainfall. Camping, hiking, commuting.

KEY FUNCTIONS / KEY DESIGN ELEMENTS

- Environmentally friendly, weatherproof, lightweight, reliable attachment to backpack.

Lightweight

Visibility

Our R-PET rain covers are made of lightweight, durable and 100% recycled material.

No matter if you are commuting to work or if you are going out hiking, don't let the rain ruin your everyday adventure plans.

With the drawstring you adjust the size according to your backpack and a buckle ensures that the cover stays in place. When not in use, the cover is stored in the small pouch to take up minimum space.

Designed to be as environmentally friendly as possible but still rugged, waterproof, reliable and functional. These rain covers will protect your gear and they will keep our outdoors clean for future adventures. If you are a true outdoor enthusiast – choose the R-PET series.

FEATURES

- 100% recycled PET (polyester) – lightweight and durable
- Flexible sizes to meet different needs and the size of your backpack
- Drawstring adjustment for perfect fit
- Ultra small when stored in the compression bag, easy to bring
- Bright colours on for extra visibility in the darkness
- Volume: S (15-25 litres), M (25-40 litres), L (40-60 litres)

INCLUDED

- Compact storage bag (integrated)
