ART. NO. 55068

RRP SEK 0000,-

This convenient small sized electronic map measurer allows you to accurately measure both the distance and the estimated travel time between two points on a map. This is your long time partner on both land and sea.

## FEATURES

- A rugged and waterproof design; for use in all weather conditions
- Flexible measurement that both adds and subtracts distance
- Smart wheel setting - easy and quick set up
- Trip planning functionality, calculating both distance and travel time
- Scale 1:1 - 1:99.999.999; compatible with any map or scale
- Belt clip and detachable lanyard

# MAP MEASURER PATH

ART. NO. 37507

RRP SEK 0000,-

This is an analogue navigation instrument with a pointer. Choose one of the eight map scales between 1:15.000 and 1:750.000 according to your map, and it measures your planned route. Given a known speed you can then also calculate how long it will take to cover the rest of the trip.

## FEATURES

- Analogue measurer with a pointer
- Measures your planned route - easy to plan the remaining excursion
- Scales; 1:15 000, 1:25 000, 1:50 000, 1:100 000, 1:200 000, 1:400 000, 1:500 000 and 1:750 000
