A person wearing a red jacket and a helmet with a headlamp is adjusting the headlamp on a ski. The scene is dark, suggesting nighttime or low light conditions. The person is wearing black gloves with yellow accents. The background is dark and blurry, showing what appears to be a snowy or icy surface.

LIGHTING HEADLAMPS

MULTI ACTIVITY

EXCEED 3 SERIES

Do you feel like speed is what makes the sport? Do you love the rush of going so fast you're right on the edge of losing control? Then Exceed is the headlamp for you. It's lightweight enough for sports like mountain biking and downhill skiing, and powerful enough to not only keep up with you, but allow you to go even faster. Choose between Exceed 3X with a compact and lightweight battery pack or go for the Exceed 3XT with a long distance battery pack.

Choose between Exceed 3X with a compact and lightweight battery pack or go for the Exceed 3XT with a long distance battery pack.

THE DESIGN STORY BEHIND: EXCEED 3 SERIES

WHAT

- The ultimate adrenaline headlamp. A multi activity headlamp series with a great combination of powerful light and battery power.

WHY

- To offer every pulse lover who wants to take their activities to a new level more light to practice their activities during a fast pace. Extending the training hours.

WHO

- For demanding multi athletes with focus on downhill skiing, biking or orienteering.

WHEN

- All types of rough weather and terrains.
- When you want to push your limits to the next level
- For long/short and fast training sessions or races during dark, rainy, snowy, muddy conditions.
- Running, downhill skiing, biking and orienteering.

KEY FUNCTIONS / KEY DESIGN ELEMENTS

- Powerful light
- Boost mode
- Water resistant (IPX5)
- Multi attachments
- Intelligent light
- Flow light

Ultimate Adrenaline headlamp

With a great combination of powerful light and battery power – this edition exceeds its predecessor by providing even more light output and flexibility without adding more weight. With updated, more ergonomic buckles for smoother adjustment of the headband, an improved back plate for optimal weight distribution/battery carrying and a new headband combined with a smart cable guide that gives you more carrying options - this is the perfect companion for multi athletes with focus on downhill skiing and biking.

FEATURES

- SILVA Intelligent Light, combining long reach spot light and close flood light
- SILVA Flow Light, seamless adaption of the light pattern for different activities
- 3 x attachments, enables easy adaption for several activities
- SILVA Connection System, enables use of any SILVA Li-Ion battery from 2008 and onwards. If the cable fits, it works.
- Super-low mode (80 lm); to maximize the burn time
- Boost mode (2300 lm); for extra powerful light when better vision is required
- Long-distance battery pack (9.9 Ah)
- Battery level indicator and low battery-warning, to ensure enough light
- Reserve mode that ensures at least another 30 minutes of use
- Water resistant: both headlamp and battery meet IPX5 standard

UPDATES

- 2000 lumen (2300 lm boost mode)
- Light distance 220m
- Improved back plate
- New improved cable guide (back)
- Improved adjustment buckles on headband
- Lower weight (129 g)
- New design/colours
- Storage bag instead of storing case

INCLUDED

A high-angle, low-light photograph of two mountain bikers descending a narrow dirt trail in a dense forest at night. The bikers are wearing white and yellow gear and helmets. Their headlamps are on, casting a bright beam of light onto the trail ahead. The surrounding trees are dark and silhouetted against the light from the headlamps.

TRAIL SPEED 4 SERIES

Choosing only one activity can be hard — and boring. You might want to go for a run one day, and mountain biking, or downhill skiing, or XC-skiing, or.... And you probably also want to take your activities to a new level. The Trail Speed is our most iconic headlamp with the perfect blend of light output, battery power and weight. Trail Speed is a great companion for advanced multi athletes and will guide you on any adventure. Choose between Trail Speed 4XT with a lightweight, rechargeable battery and attachments for helmet/bike or go for the Trail Speed 4R - with a without additional brackets and a smaller battery - if you just want to focus on running.

DESIGNED IN SWEDEN SINCE 1933

A woman with blonde hair tied back is running through a forest at night. She is wearing a bright pink long-sleeved jacket, black leggings, and a headlamp on her forehead. The headlamp is illuminated, casting a beam of light onto the ground. The forest is dark, with many trees and a ground covered in fallen leaves. The text "LIGHTING HEADLAMPS" is overlaid in the center, with "LIGHTING" in white and "HEADLAMPS" in orange. Below it, the word "RUNNING" is written in white.

LIGHTING HEADLAMPS

RUNNING

TRAIL RUNNER FREE SERIES

The world's first seamless headlamp experience.

On this fifth generation of our original running headlamp, we present a new kind of technology where the power is fully integrated. We call it Free Technology - a comfortable headlamp experience without distracting cords. No hassle - Just free the energy.

FW20

TRAIL RUNNER FREE – FREE THE ENERGY

The world's first seamless headlamp experience.

On this fifth generation of our original running headlamp, we present a new kind of technology where the power is fully integrated. We call it Free Technology - a comfortable headlamp experience without distracting cords. No hassle - Just free the energy.

THE DESIGN STORY BEHIND: TRAIL RUNNER FREE

WHAT

- The world's first seamless headlamp experience: a new kind of headlamp - free from distracting cables, more lightweight, comfortable and versatile, but still with a clear focus: Running.

WHY

- We wanted to create the world's first seamless headlamp experience - to let the user feel more free and focus on the exercise instead of the gear.

WHO

- We designed Trail Runner Free for everyone who loves running. This lamp should be a running headlamp in every aspect. With features based on a runner's needs.

WHEN

- It will light up your trail anytime - during the evening or all night long. For a short run in the city or ultra long trail running. When rain is pouring down, in snow, mud or dirt - you can use it whenever..

KEY FUNCTIONS / KEY DESIGN ELEMENTS

- Free Technology - a comfortable headlamp experience without distracting cords.
- Hybrid battery case: can carry either a rechargeable pack or AAA. Integrated red rear safety light. Grip friendly surfaces.
- Flat, soft textile extension cord.
- Intelligent light

INCLUDED

A night scene of three hikers at a campsite. Two tents are illuminated from within, casting a warm yellow glow. A hiker in a blue jacket is sitting inside the left tent, another in a green jacket is standing in the center, and a third in an orange jacket is crouching by the right tent. All three are wearing headlamps. The background shows dark silhouettes of trees and distant, snow-capped mountains under a dark, cloudy sky. The ground is covered in low-lying vegetation.

LIGHTING HEADLAMPS

OUTDOOR

A person stands on a dark mountain ridge at night, their headlamp casting a bright white beam. The sky is dark with stars, and two vibrant green laser beams project upwards from the ground. In the distance, a road or path is visible, illuminated by warm orange lights.

EXPLORE 4 SERIES

Explore was created for adventures — on land as well as on water. They are 100% waterproof and come with not only white light, but also red light to preserve night vision, and orange light optimal for map reading. These headlamps are designed for mountaineering, kayaking, hiking or sailing and will be a great companion on all adventures. Choose Explore 4RC if you prefer rechargeable batteries, or choose the Explore 4 if you want alkaline batteries that you can change during longer adventures.
