WINTER 2020 - 21

FIZAN

MADE IN ITALY SINCE 1947

Domenico Fincati ha fondato Fizan nel 1947 ed è stato il primo al mondo a produrre bastoni da sci utilizzando l'alluminio.

L'azienda ha le sue radici in Italia, ad un'ora da Venezia, dove la produzione "Made in Italy" permette un controllo completo e costante su tutti i prodotti.

I processi produttivi sono conformi a tutte le normative europee circa il divieto di utilizzo di sostanze dannose.

Da quasi 10 anni Fizan ha investito nell'impianto fotovoltaico diventando così, autosufficiente per circa il 60% del proprio fabbisogno ed evitando l'emissione annua di circa 25.000 kg di CO2.

Domenico Fincati founded FIZAN in 1947 and was the first in the world to produce aluminum ski poles. The company is situated in Italy, one hour from Venice, where "Made in Italy" production is a complete and constant control over all products.

The production processes comply with all European regulations regarding the prohibition of the use of harmful substances. For almost 10 years FIZAN has invested in the photovoltaic system thus becoming self-sufficient for about 60% of its needs and avoiding the annual emission of around 25,000 kg of CO2.

Mr. Domenico Fincati

WINTER POLES

ROTELLE

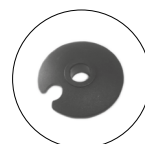

Fizan dispone di molte forme di rotelle per la discesa, il fondo e lo sci alpinismo. La più innovativa resta l'unibasket, una speciale rotella che non necessita del supporto per essere inserita.

BASKETS

Fizan has many types of baskets for alpine and cross country skiing. The most innovative remains the Unibasket, a special factory fitted one piece basket.

GRAFICA

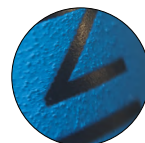

Fizan per realizzare la grafica nei suoi bastoni utilizza la serigrafia o la tecnica della sublimazione. Con la sublimazione l'immagine è più nitida e molto più resistente ai graffi o ai danni.

DESIGN

Fizan uses the screen printing or sublimation technique to create the graphics on the poles. In the sublimation the image is sharper and much more resistant to being scratched or damaged.

SUBLIMATION

SILK-SCREEN PRINTING

ALLUMINIO & CARBONIO

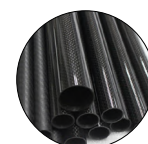

Fizan utilizza solo materia prima pregiata e di alta qualità. Le due leghe di alluminio (7075-5083) vengono fornite solo da partner certificati. Il Carbonio utilizzato nei bastoni garantisce leggerezza e ottima resistenza.

ALUMINUM & CARBON

Fizan uses only high quality raw materials. The two aluminum alloys (7075-5083) are supplied only by certified partners. The Carbon used in the pole shafts provide lightness and rigidity.

ART. 205/20 B
150 grams 39 x 15 cm

WAIST BAG YELLOW
ART. 205/20 G
150 grams 39 x 15 cm

Marsupio con porta borraccia estraibile e regolabile attraverso una cinghia. Presenza di inserti riflettenti, sui passanti e sulla tasca, per una maggior visibilità al buio. Tessuto moderno e resistente proposto in versione nera e gialla.

Waist bag with removable bottle holder and adjustable strap. Presence of reflective inserts, on the loops and on the pocket, for greater visibility in the dark. Modern and resistant fabric available in black and yellow version.

MINI WAIST BAG
ART. 207/20
60 grams 24 x 7 cm

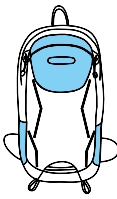

Mini marsupio realizzato con un tessuto elastico che si espande nel momento in cui vengono inseriti gli oggetti al suo interno. Pratico, leggero e funzionale, dotato di inserti riflettenti per maggior visibilità al buio.

Mini waist bag made with an elastic fabric that expands when the objects are inserted inside. Practical, light and functional, with reflective inserts for greater visibility in the dark.

BACKPACK BLACK
ART. 206 B
450 grams cap. 20 lt 28 x 18 x 45 cm

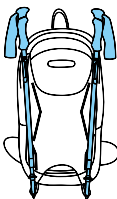

BACKPACK YELLOW
ART. 206 G
450 grams cap. 20 lt 28 x 18 x 45 cm

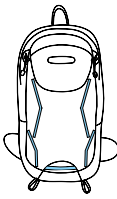

TASCHE ESTERNE
Lo zaino ha una capienza di 20 lt. Le tasche esterne sono 4, due laterali e due frontali, che permettono di ampliare il volume dello zaino. Le tasche sono dotate di zip ergonomiche resistenti e affidabili.

EXTERNAL POCKETS
The backpack has a capacity of 20 liters. with four external pockets, two on the front and two on the sides. This adds extra volume to the backpack. The pockets have ergonomic, resistant and reliable zippers.

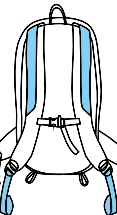

SISTEMA PORTABASTONI
Sono presenti delle asole esterne sulla parte bassa dello zaino, che vengono utilizzate per inserire la punta del bastone, che viene successivamente bloccato con dei comodi elastici posti sulla parte superiore.

POLES HOLDER SYSTEM
There are external slots on the lower part of the backpack, which are used to insert the tip of the pole, which is subsequently held in place with a comfortable elastic bands on the upper part.

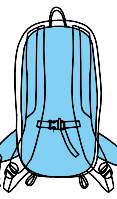

INSERTI RIFLETTENTI
Sulla parte frontale dello zaino ci sono degli inserti riflettenti per essere più visibili di notte.

REFLECTIVE INSERTS
Reflective inserts are positioned at the front of the backpack to be visible at night.

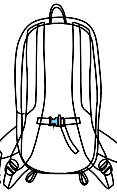

SPALLINE
Rivestite con un tessuto a rete traspirante, morbido che dona confort a chi indossa lo zaino. Le cinghie sono facili da regolare, grazie ad delle asole inserite all'estremità di esse.

SHOULDER PADS
Covered with a breathable and soft mesh fabric that gives comfort to person wearing it. The straps are easy to find and adjust even when the backpack is worn.

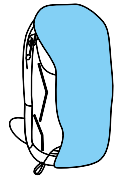

SCHIENALE
Lo schienale è rivestito con un tessuto reticolato traspirante e morbido, perfettamente adattabile ad qualsiasi anatomia donando comfort a chi indossa lo zaino. La cintura integrata sui fianchi si adatta perfettamente alle anche ed alla vita, per ottimizzare il sostegno del carico.

BACK
The back is covered with a breathable and soft reticulated fabric, perfectly adaptable to any anatomy and to giving comfort to the person wearing it. The belt integrated on the hips adapts perfectly to the hips and waist, to optimize load support.

AGGANCIO CON FISCHIETTO
Le fibbie esterne sono modellate con la forma di un fischietto, estremamente utile nelle situazioni di pericolo.

HOOK WITH WHISTLE
The external buckle has been designed in the shape of a usable whistle. This could become extremely useful in an emergency.

COPRI ZAINO PER PIOGGIA
All'interno di una tasca sottostante è stato inserito un coprizaino per proteggere lo zaino in caso di pioggia.

RAIN COVER
Inside one of the pockets, you'll find an elasticated waterproof cover designed to protect the backpack in case of rain.
